Report Comments

Dear Xun,

This is your Student Questionnaire on Courses and Teaching (SQCT) feedback report.

Please note that, as per the new Faculty Collective Agreement, means, standard deviations, and medians are no longer provided for student ratings in the SQCT Results Reports. There are several resources available to help with the interpretation of the ratings and student comments.

Reports that include the means, standard deviations, and medians are available to individual faculty members by request from feedback@uwo.ca

If an instructor receives a comment that they believe is offensive and wishes to report that comment, they are asked to do so using the new SQCT Comment Review tool in the Faculty/Staff Extranet. If the comment raises concerns regarding faculty or student safety, Western Special Constable Service should be notified immediately.

Historically, offensive comments, such as those that violate the Student Code of Conduct (e.g., discriminatory, harassing, threatening), have been rare at Western.

If you have any questions about the Feedback SQCT online system or the feedback results report, please contact feedback@uwo.ca.

Sincerely,

Feedback Team
Western University

Very interesting content. Although the content is challenging for me, I am glad that I chose to take this course for this summer. The prof is nice and enthusiastic, highly recommend!
Enjoyed the professor's lectures, teaching at a good pace, able to give us a clear understanding of key points and difficulties, and went out of his way to help us. Teaching is thorough and detailed with a sense of responsibility, the class is interesting and will address student concerns in a timely manner. He is an excellent professor. I enjoyed listening to his class.
It is my personal opinion that the Pearson official PowerPoints are essentially main point notes of the chapter (almost word for word from the text). Though it is convenient for studying purposes, I feel that for teaching purposes, it would be more intuitive if instructors are able to make their own PowerPoints (which fits their own teaching style). The Pearson ones are pretty bland and beats the purpose of a PowerPoint which would be to enhance an already well–thought–out presentation. In fact, it would have been easier if the Pearson PP came in a word doc so that I can just add my notes to that easier.

No instructor additional questions selected.
